DETAILED ACTION

Response to Amendment

1. Amendments to claims 1 and 9-11 have been entered in the above-identified application. Claims 5-7 are cancelled. New claims 13-15 have been added.

Claims 1-4 and 8-15 are pending of which claims 10-12 are withdrawn from consideration.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-4, 8, 9, and 13-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Independent claim 1 (upon which claims 2-4, 8, 9, and 13-15 depend) has been amended to recite that the "thermoplastic elastomer component (A) is a hydrogenated block polymer of a conjugated diene obtained by polymerization without using, as a monomer, an aromatic vinyl compound". However, the Examiner was unable to locate any support for the limitation "obtained by polymerization without using, as a monomer, an aromatic vinyl compound" in the original disclosure, i.e., the original claims or the as-

filed Specification. Furthermore, the Applicants fail to point to any specific support and simply state that "the amendments to the claims and newly-added Claims 13-15 are supported by the specification and the original claims".

The Examiner would like to point out that any negative limitation or exclusionary proviso (such as "obtained by polymerization ***without using, as a monomer, an aromatic vinyl compound***") must have basis in the original disclosure. The mere absence of a positive recitation is not basis for an exclusion.

All new matter must be cancelled in response to this Office Action.

Response to Arguments

3. The rejections of record (as provided in the previous Office Action) have been withdrawn in view of Applicant's amendments. However, the Examiner's withdrawal of these rejections does NOT constitute a concession as to the applicability or non-applicability of the previously cited prior art to the previously presented claims or to the claims as presently amended. Upon cancellation of any new matter, the rejections may be reinstated. Applicant's arguments filed November 5, 2008 have been considered but are moot in view of the new ground of rejection based on the presence of new matter. The Examiner reserves any discussion as the merits of the previously cited prior art references until the issue of new matter has been resolved.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
